

the incident occurred, and could not provide any other information pertaining to the occurrences prior to her hearing the "whining" sounds she heard. [REDACTED] interview was digitally recorded, placed on a compact disc, and placed into evidence.

On 3/5/2012 at 1700 hours at [REDACTED] I met with [REDACTED] and [REDACTED] (age 13). I interviewed [REDACTED] due to the possibility of him being a witness, after learning [REDACTED] had placed a 911 call on 2/26, and she had stated [REDACTED] had told her about "someone being shot". Also present during this interview was [REDACTED] and investigator D. Singleton. [REDACTED] stated he observed "someone laying on the ground that looked like they couldn't get up and was yelling for help". Upon inquiry, he could not say the race of the person lying on the ground, he looked like he had a red shirt, he didn't hear any arguing, and he didn't see anyone else other than the person on the ground. [REDACTED] impression was that someone had perhaps fallen down due to the wetness of the ground and had possibly broken their leg. [REDACTED] interview was digitally recorded, placed on a compact disc, and submitted into evidence.

On 3/8/2012, this case was presented to ASA James Carter in a meeting conducted at the Sanford Police Department.

On 3/9/2012 I received a fax from Altamonte Family Practice, which contained the medical records identifying the injuries sustained by Zimmerman on the evening of 2/26/2012. Said medical records list Zimmerman's injuries as:

1. Open wound of scalp, without mention of complication
2. Nasal bones, closed fracture
3. Assault by other specified means

On 03/10/2012 at approximately 1330 hours, I interviewed [REDACTED] at her residence, [REDACTED] whose identity was made known due to her having called 911 on 2/26/2012 at 1918 hours, agreed to being interviewed (digitally recorded) at her residence. Upon inquiry, [REDACTED] states she had just arrived home when she was about to let her dog go outside her back porch area when she heard a voice crying for help. She stated she looked through her back sliding glass door and observed an individual lying on the ground, apparently calling for help. She stated she observed a neighbor, whom she could not identify, asking the person on the ground if he was "okay" and if the person on the ground wanted him to call 911. [REDACTED] states that upon hearing the term '911', she chose to secure her sliding glass door, and retreated to the bathroom of the second floor of her townhome. She stated that as she raised the window of the bath room, in order see what was happening with the person laying on the ground, she heard a "pop" noise that she construed to be a gunshot. She stated that upon reacquiring a view of the occurrences, she observed a female and male giving CPR to the person on the ground. Upon inquiry, [REDACTED] states she did not witness anyone fighting with anyone, and she reiterated she did not witness the event in its entirety.

On 3/10/2012, at approximately 1310 hours, I attempted to contact [REDACTED] [REDACTED] in order to re-interview her pertaining to her 911 call placed on 2/26. I left a business card on her front door and have left two messages on her cell phone voice mail.

Investigative findings show that on 2/26/2012 at approximately 1912 hrs George Michael Zimmerman initiated a nonemergency call to Sanford Police dispatch to report a suspicious person. Zimmerman reported a suspicious person, Trayvon Martin, whom he observed entering the gated community of The Reserve at Twin Lakes on foot, walking between residences from the northwest. [REDACTED]

Investigation reveals that on August 3, August 4, and October 6, 2011, and February 2, 2012, George Zimmerman reported suspicious persons, all young Black males, in the Retreat neighborhood to the Sanford Police Department. According to records checks, all of Zimmerman's suspicious persons calls while residing in the Retreat neighborhood have identified Black males as the subjects.
